

Opportunities in Cancer Prevention and Control

Postdoctoral Fellow (Multiple Positions)

Request for Applications

Washington University School of Medicine and Siteman Cancer Center, a National Cancer Institute-designated Comprehensive Cancer Center, are seeking applications for **Postdoctoral Fellowships in Cancer Prevention and Control**.

We are particularly interested in candidates with an interest in health behavior and health disparities research, community-based research, cancer communication, epidemiology, or decision sciences. However, all applications will be considered. **Applications are considered on a rolling basis, but consideration of applications for the 2017-2018 cohort officially begins February 1, 2017.**

Eligibility:

PhD, DrPH, MD, or other doctoral degree in a public health related discipline, or a doctoral degree in another discipline with an interest in transitioning to public health research.

A strong mentoring and career development program is in place in the Division of Public Health Sciences with a track record of successfully placing trainees. The Division of Public Health Sciences conducts world-leading research, education and outreach to prevent cancer and other diseases, promote population health, and improve quality and access to health care in Missouri and beyond.

The division is led by Graham Colditz, MD, DrPH, an internationally recognized leader in cancer prevention. Our vibrant group of multidisciplinary faculty conducts research on a wide range of health issues, and there are opportunities to collaborate with clinical, basic science, statistical, and other faculty across the academic campuses of Washington University. Siteman Cancer

Center is a NCI-designated comprehensive cancer center with a strong Prevention and Control program.

Washington University offers excellent benefits and competitive salaries. Fellowships are for 2 years with a 3rd year available based on performance. Support for tuition, books, software and conference travel is available.

Benefits

- Diverse faculty and transdisciplinary environment
- Trainees linked with a mentoring team
- Support for further training and professional development
- Competitive salary and benefits
- Two years of support, possible 3rd year
- Funding is possible through a T32 grant from the NCI

To apply, please visit: or <http://mphs.wustl.edu/Admissions/How-To-Apply> or send a cover letter, curriculum vitae and professional reference list by email to colditzg@wudosis.wustl.edu. Inquiries can be directed to Dr. Aimee James, Training Director, at jamesai@wudosis.wustl.edu. The Washington University School of Medicine is an equal opportunity employer.
